Read the introduction then plan and write an essay in response to the question below. Use the essay as a chance to show how clearly and effectively you can express and develop ideas. Present your thoughts logically and precisely. Include evidence or examples to support your point of view. A plain and natural writing style is recommended. The number of words is up to you, but quantity is less important than quality.

You may write notes on this question paper, but write your essay on the separate answer sheet. Write neatly, because handwriting that's hard or impossible to read will decrease your score.

If you finish in less than 40 minutes, check your work.

Introduction:

Dall-E 2 is an artificial neural network that uses machine learning (AI) to generate digital images based on written instructions input by a human user. The AI is first trained using a large dataset of millions of human-made images, after which it can create completely new images by itself.

Recently an American man won an art competition using AI-generated art (see image).

Essay Question:

Should AI-generated art be accepted in art competitions? Or is it cheating?

Write a well-structured essay defending your position.

NOTE: You can use this paper for planning.
