Question 4

Situation: Your school will convert a small room into a student-run store. Like a club, students will manage all aspects of the new business. Any money collected will go to the school council. There are four options for the store and you need to decide which ONE to pursue.

Student Run Store

Store Ideas (choose ONE)

Coffee Shop

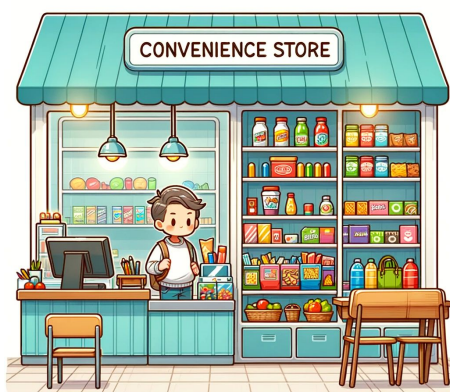

Coffee shops are everywhere. Let's run one in school. It'll be good business practice, and as an extra bonus - keep students alert.

Book Shop

Students can select and promote books around the school and sell them in the shop. A great way to encourage more reading while making money for the school.

Convenience Shop

Students know what they like. Let them take responsibility for the candy, stationery, and other goodies in their own store!

Recycle Co-op

Focus on giving. Why not have a place to bring your second-hand goods? After collection, they can be donated or sold. Make money for the school and reduce waste.
